

Heatmap and bar chart showing gene expression profiles across 19 clusters. The heatmap displays expression levels (color scale: -2 to 2) for genes TCF1, GZMB, PD1, TOX, CD11c, CD3e, CD4, FOXP3, CD8a, and BCL6 across 19 clusters. The bar chart shows the count of cells for each cluster (color scale: 1 to 19).
